PURPOSE(S):

To establish a mission critical information system that automates tasks and functions of order writing. Any duty related travel requires the individual to travel "on orders," which is a detailed account of where the person is traveling to and from, as well as the financial designation of what type funds are used to pay for this type duty travel. Typically a request is initiated for a field unit to fulfill a military duty and/or travel in support of the Air National Guard or Air Force mission requirement and processed through the Air Force Reserve Command. The approval of the orders includes the allocation of funds necessary to support the cost of the request. Cost items that are typical for orders are basic military pay, per diem, subsistence, housing and travel expense. Tracking the use of the funds and the ability for reconciliation is an essential element.
